Additional Live In Services

Live In Care Plus

Live In Care Plus allows Live In care to be provided to people who require more than one carer, for example if a sitting hoist is used. The Plus carer only works when required, usually on an hourly basis.

Home from Home

For people who would like to holiday in Ireland, or go to an event such as a wedding and would like a companion to accompany them and support their independence. This service is available in the Republic of Ireland.

Live In for Students

Live In Personal Assistants support you through college life providing orientation, note-taking, library support, personal care and support in all aspects of student life.

Comfort Keepers
HOME CARE

www.traleprinting.com

Remaining at home is everyone's first choice. Comfort Keepers Live In service means you don't have to give up your normal lifestyle due to illness and other conditions.

Comfort Keepers dedicated Live In team ensures consistent high quality of service and the flexibility to change care when required.

Comfort Keepers is a family owned and run organisation. Our mission is to care for you as we would do a member of our own family with the respect and dignity you deserve.

Comfort Keepers dedicated Live In manager will provide a free consultation with you, outline the service and match carers to your personality and requirements so that they soon become part of the family.

Live In Care for Family Members

The Live In service allows you to fully enjoy time with your loved one. Live In carers support family members with the day to day running of a household, running errands, driving to and from appointments etc.

It is good to have someone to talk to confidentially on a regular basis who understands and who is there to support you in keeping your loved one at home.

Live In Carers

Live In Carers have a holistic interactive approach to care and are dedicated to the wellbeing and support of the persons independence. Live In carers have more life experience and enjoy working on a one to one basis.

All carers are fully trained in-house and are fully instructed on your specific requirements in your home before care commences. This gives you an opportunity to meet your carers and decide if you are comfortable for care to start. Before commencing care all Comfort Keepers carers are fully trained, vetted & background checked. Comfort Keepers Training is a FETAC registered provider.

We perform detailed background checks including Garda Vetting, Sex Offender's Register, Driving Convictions Check, in addition to written employment and personal references for every carer.

Carers are carefully matched to you and your requirements so the carer soon becomes a friend.

A recent survey found that 95% of our clients would and have recommended Comfort Keepers to a friend.

How Live In Care Works

Carers work one week on one week off. You have two dedicated carers who alternate each week, this allows for continuity of care so that you can build a relationship with the carers. When possible your dedicated carer's will be used to cover holiday and sick leave for each other and an alternative carer is on-call for this purpose who has already been introduced to you if required.

Carers will generally work from when you get up in the morning to when you go to bed and will have regular breaks during the day which are taken when family members and others come to visit or when care is not required (you are taking a nap / watching TV). Carers then stay the night. They sleep in their own room and have their own private space, generally the guest room in the house.
